

PACL, a reputed name in real estate for the last 15 years with a presence pan India with its Housing, Commercial, Townships, and Hospitality Projects is here to stay and will continue to give value to its customers. "In fact we have massive growth plans and customers are calling in to reiterate their trust in our company and the value we bring to them and their investments.

Nothing can deter us from our path for growth to our customers especially at the lowest level in small towns and villages. A few vested interests may try and are trying to spread a negative word here and there but facts speak for themselves and our customers are with us. In fact it has only deepened our resolve to take our company to bigger heights," says Jyoti Narain, CEO of PACL.

Brushing aside the recent negative reports in a section of the press Mr Narain clarified: "PACL has recently wrongly being presented as a chit fund company along with some other companies. There is no truth in the propaganda of PACL being a chit fund company, NBFC or in any business of collective investments. At a time when many real estate developers are being accused of launching projects which are not authorized by the Government, PACL has launched projects only after taking all the required clearances from authorizing bodies. This truth speaks for itself and regulatory bodies and our customers will second this."

Mr. Narain further stated "PACL is not a chit fund company and is purely engaged into real estate and related activities. These types of allegations had come up in past too but PACL won all the legal battles against them from the Honorable High Courts of Rajasthan and Delhi. But if any customer still has any concerns with any of our schemes, they are most welcome and can share their concerns with us. In fact for this we have we have created helpline numbers 1800117314 (For MTNL & BSNL Users) & 011 - 43650000 (for other users), and in last one month itself the company has settled 51000 claims in Gwalior alone".

Customers have been the backbone of PACL and are absolutely satisfied with services provided by PACL, and they are absolutely safe. It is stated and management confirmed availability of land worth a substantial amount. PACL does not have any cases of default and have been regularly honoring all their agreements with their customers.
